

AI Agent Starter Bundle — Quickstart Guide

\$150 — Lifetime Access

Welcome! You've purchased the AI Agent Starter Bundle — your launchpad to sovereign AI.

WHAT'S INCLUDED

- 3 Pre-built agent templates (assistant, researcher, automation)
- Installation & configuration guide
- 30-min setup video (link sent via email)
- OpenClaw base configuration

QUICK START

1. Install Node.js 22+ and Ollama
2. Clone your private bundle repo (link sent to your email)
3. Run: `cd ai-agent-bundle && npm install`
4. Start your first agent: `npm run start:assistant`

PREREQUISITES

- Linux (Ubuntu 22.04+), macOS, or WSL2
- Node.js v22 or later
- 8GB+ RAM recommended for local LLM inference
- Ollama installed (for local models)

SUPPORT

Email: nodezero@agentmail.to (include your order number)

Response within 24 hours.
