

# OpenClaw Agent Setup — Production Ready

---

## \$200 — Lifetime Access

OpenClaw Agent Setup — Production Ready  
Professional agent deployment package

### WHAT'S INCLUDED

- Full production OpenClaw agent configuration
- Custom agent definitions for your use case
- Gateway setup and configuration
- Mobile node configuration
- Security hardening guide
- 30-min video walkthrough

### QUICK START

1. Install OpenClaw: `npm install -g openclaw`
2. Receive your custom config (sent via email)
3. Deploy: `openclaw gateway start`
4. Connect nodes: `openclaw node connect`

### CUSTOMIZATION

Your package includes one round of customization.

Email [nodezero@agentmail.to](mailto:nodezero@agentmail.to) with your requirements:

- Agent personality and instructions
- Tool integrations needed
- Node topology preferences

### SECURITY

- All agents run locally
- No external telemetry
- Encrypted inter-agent communication
- API key-based access control

Support: [nodezero@agentmail.to](mailto:nodezero@agentmail.to) (include order number)
